

## Where are the Magazines & Journals in Shields Library?

There is no one place for the periodicals. See charts below for the locations of current and back issues. All periodicals are shelved by call number. The term *Current periodicals* generally refers to the past 6 – 12 months. The current periodicals can be found on the lower level and on the third floor (see chart below). Eventually, most Shields Library periodicals are bound and shelved by call number with the books (on all floors); however, binding is determined based on frequency of issue. For shelving locations, check signs by elevators or library map.

*Current Periodicals: located on Lower Level and Third Floor*
