

Offsite Access to the Library

Online Journals & Licensed Databases

Activating Your Account

A server at the UCD *Information & Education Technology* department keeps track of the campus user accounts. Faculty, staff and students can activate their accounts, change their passwords, and grant new services (including Kerberos and ISUN) at the UC Davis Computing Account Services menu. You will need your Employee ID Number or your SSAN.

<http://computingaccounts.ucdavis.edu>

Setting Up Your Browser

Current Faculty, Staff, and Students of UC Davis may use these and other (though not all) services from off-campus by setting up their web browsers to use the Library's proxy server.

For Windows IE6, follow the directions printed below. Instructions for other browsers are found on the *Access to UC Davis Licensed Resources* page:

<http://www.lib.ucdavis.edu/info/computers/proxy>

Getting what you want

Click on any of the Library's licensed online resources, and you will see a challenge dialog from the Kerberos authentication server. Enter your Kerberos login ID and password, and you're in.

Off-campus access to the Library's collection of online journals, as well as most of its listing of online resources, is easiest straight from the Library's web page:

<http://www.lib.ucdavis.edu/dept/hsl/>

Instructions for setting proxy in Internet Explorer 6 for Windows

1. From the "Tools" menu of your browser, click on the "Internet Options" entry
2. Click on the tab labeled "Connections" **AND** Click on the appropriate item in the "Dial-up Settings List"
[DSL and cable modem users: use "Local Area Network (LAN) settings" instead]
3. Click the button labeled "Settings"
[DSL and cable modem users: click the button labeled "LAN settings" instead]
4. Check the checkbox labeled "Use automatic configuration script"
5. Enter the following URL into the field labeled "Address"
<http://www.lib.ucdavis.edu/proxy/pacserve>
6. Click the button labeled "OK"
7. Remove checkmarks from "Automatically detect settings" and "use a proxy server" if they are present.
8. You have now successfully completed the proxy setup

For help on the Davis campus, call *IT-Express* at (530) 754-HELP or 754-4357. For help at the Medical Center, call the *UCDMC I.S. Customer Support Center* at (916) 734-4357.
